

## LVED FAQ: What Families Need to Know

*Digital vault, estate planning, and personal legacy messaging in one place.*

### What is LVED?

LVED (pronounced 'loved') is a subscription-based estate planning platform that combines legally valid documents, a 25GB secure digital vault, and personal message delivery in one guided system. It is built so your plan stays current as your life changes.

### What documents does LVED include?

Every subscription includes a last will and testament, living trust, durable power of attorney, healthcare directive, living will, HIPAA release, and guardianship designations. All documents are state-compliant. Unlimited updates are included at no extra charge.

### What does the digital vault store?

The 25GB vault holds financial account information, insurance policies, property documents, passwords, cryptocurrency details, and anything your family needs to find. You control who can access what and when. The vault is SOC2 compliant.

### What makes LVED different from other estate planning platforms?

LVED is the only online platform that delivers personal messages to your loved ones automatically. You can record videos, write letters, and schedule delivery for specific moments. When the time comes, LVED notifies beneficiaries and executes your wishes.

### Is there a subscription fee after the first year?

Yes. After your first year, renewal is \$97 per year, covering unlimited updates and continued vault access. For families whose lives are changing, this replaces attorney fees for revising a static document every few years.

### Is there a money-back guarantee?

Yes. LVED backs every plan with a 30-day money-back guarantee. If it is not the right fit, you receive a full refund and keep your completed documents.

### How do we get the lowest price on LVED?

Use promo code YFY63MX8 at checkout or visit the Memorial Merits review page using the QR code below. Either path applies 33% off any plan, the lowest discount available for LVED online.
