

*Memorial Merits is partnered with Discount Caskets. A one-page, honest reference for families considering the Aurora Series Copper.*

## Aurora Series Copper Casket FAQ

*Ordering online is fast and simple. Everything you need is on this page.*

### **Will my funeral home accept a casket I order online?**

Yes. The FTC Funeral Rule requires every funeral home to accept a casket from any outside source with no handling fee. This federal law has been enforced since 1984.

### **How does it compare to the Batesville Silver Rose at \$4,495?**

Both are 18 gauge sealed steel, half couch, round corners. The Aurora costs \$2,800 less. The construction that protects your loved one is identical. The price difference pays for the Batesville name, violet finish, and embroidered velvet.

### **What does "sealed" actually mean?**

A rubber gasket and locking mechanism create a barrier against water, air, and soil. It does not preserve indefinitely. The Aurora uses the same sealed mechanism as caskets costing thousands more.

### **How fast can it arrive at my funeral home?**

Ships within 24 hours. Professional hand delivery within 1 to 2 business days. \$299 flat rate anywhere in the United States.

### **How do I place an order?**

Scan the QR code or tap the link below, add to cart, enter your funeral home's name and address. Discount Caskets coordinates delivery directly. Affirm financing available, starting at approximately \$106 per month.

### **Order the Aurora Series Copper**
