## Batesville Silver Rose Casket FAQ

*Ordering online is fast and simple. Everything you need is on this page.*

### **Will my funeral home accept a casket I order online?**

Yes. The FTC Funeral Rule requires every funeral home to accept a casket from any outside source with no handling fee. This federal law has been enforced since 1984.

### **Is this the same Silver Rose that funeral homes sell?**

Yes. It carries the C47 factory designation, the same model number funeral homes order from Batesville. Same steel, same seal, same interior. The difference is the price: \$4,495 here versus \$7,000 to \$9,000+ at most funeral homes.

### **How does it compare to the Aurora Series Copper at \$1,695?**

Both are 18 gauge sealed steel, half couch, round corners. The \$2,800 difference pays for the Batesville name, violet finish, embroidered velvet, and cathodic protection. The structural protection is identical.

### **How fast can it arrive at my funeral home?**

Ships within 24 hours. Professional hand delivery within 1 to 2 business days. \$299 flat rate anywhere in the United States.

### **Can I finance this casket?**

Yes. Affirm financing is available at checkout, starting at approximately \$156 per month. Soft credit check only.

### **Order the Batesville Silver Rose**
