

Headstone Helper FAQ

What Families Need to Know Before You Buy

Cleaning a family headstone is a labor of love, not a chore. This single-page reference covers the three Headstone Helper buying options so you can pick the right one without guessing. Scan a QR to go straight to the product page, or use the bullets to compare what each option includes and who it is built for. The cleaner inside every option is the same biological, non-acidic formula monument preservationists use professionally. Print this, share it with family, take it to the cemetery.

ABOUT THE PROFESSIONAL CLEANING TIER

Headstone Helper also offers three professional cleaning services for stones that need more than a DIY pass: Standard (\$199), Premium (\$299), and Annual Care (\$499). At time of printing, the services are listed as out of stock on HeadstoneHelper.com and the active service area is Georgia and Atlanta metro only, with a \$39 travel fee within 30 miles of zip 30303. For families outside Georgia or for stones that need structural repair (cracked, leaning, sinking, illegible), a long-established local monument company in your area is the right call, not a national service booked online.

Sanctuary, not sales floor.
